## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4,6-7,12-19 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent 6879986 to Fisher.

Regarding Claim 1, 12, 17 Fisher discloses the creating a master database having first table having keys(seg key), pointers(pointer to Seg data) and markers identifying instances of application(metadata) see Fig. 2A; creating a second table having information regarding eligible users and tokens see Fig. 5 item 58 & 60(where the key uniquely distinguishes itself for each user); creating a application to be accessed over network and associating master database see Fig. 8 item 76; generating binary key pointers and keys of predetermined length and associating the pointer to key see Col 8 Ln 29-34; information and generating tokens see Fig. 6; associating tokens with keys and encrypting of tokens see Fig. 6 item 58; encrypting token with key and prepending token with pointer see Fig. 2A Segment Prefix; provided the key pair and decrypting the token and the information contained within it see Col 16 Ln 27-52.

Art Unit: 2132

Regarding Claim 3-4, 13-16, Fisher discloses the keys being random and conforming to the protocol see Col 17 Ln 18-25.

Regarding Claim 6-7, 18-19, Fisher discloses the disabling of access when key is found see Col 14 Ln 22-36.

***Allowable Subject Matter***

Claim 5, 8-11, 20-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***
